

KEY POINTS

LOCATION POINT C

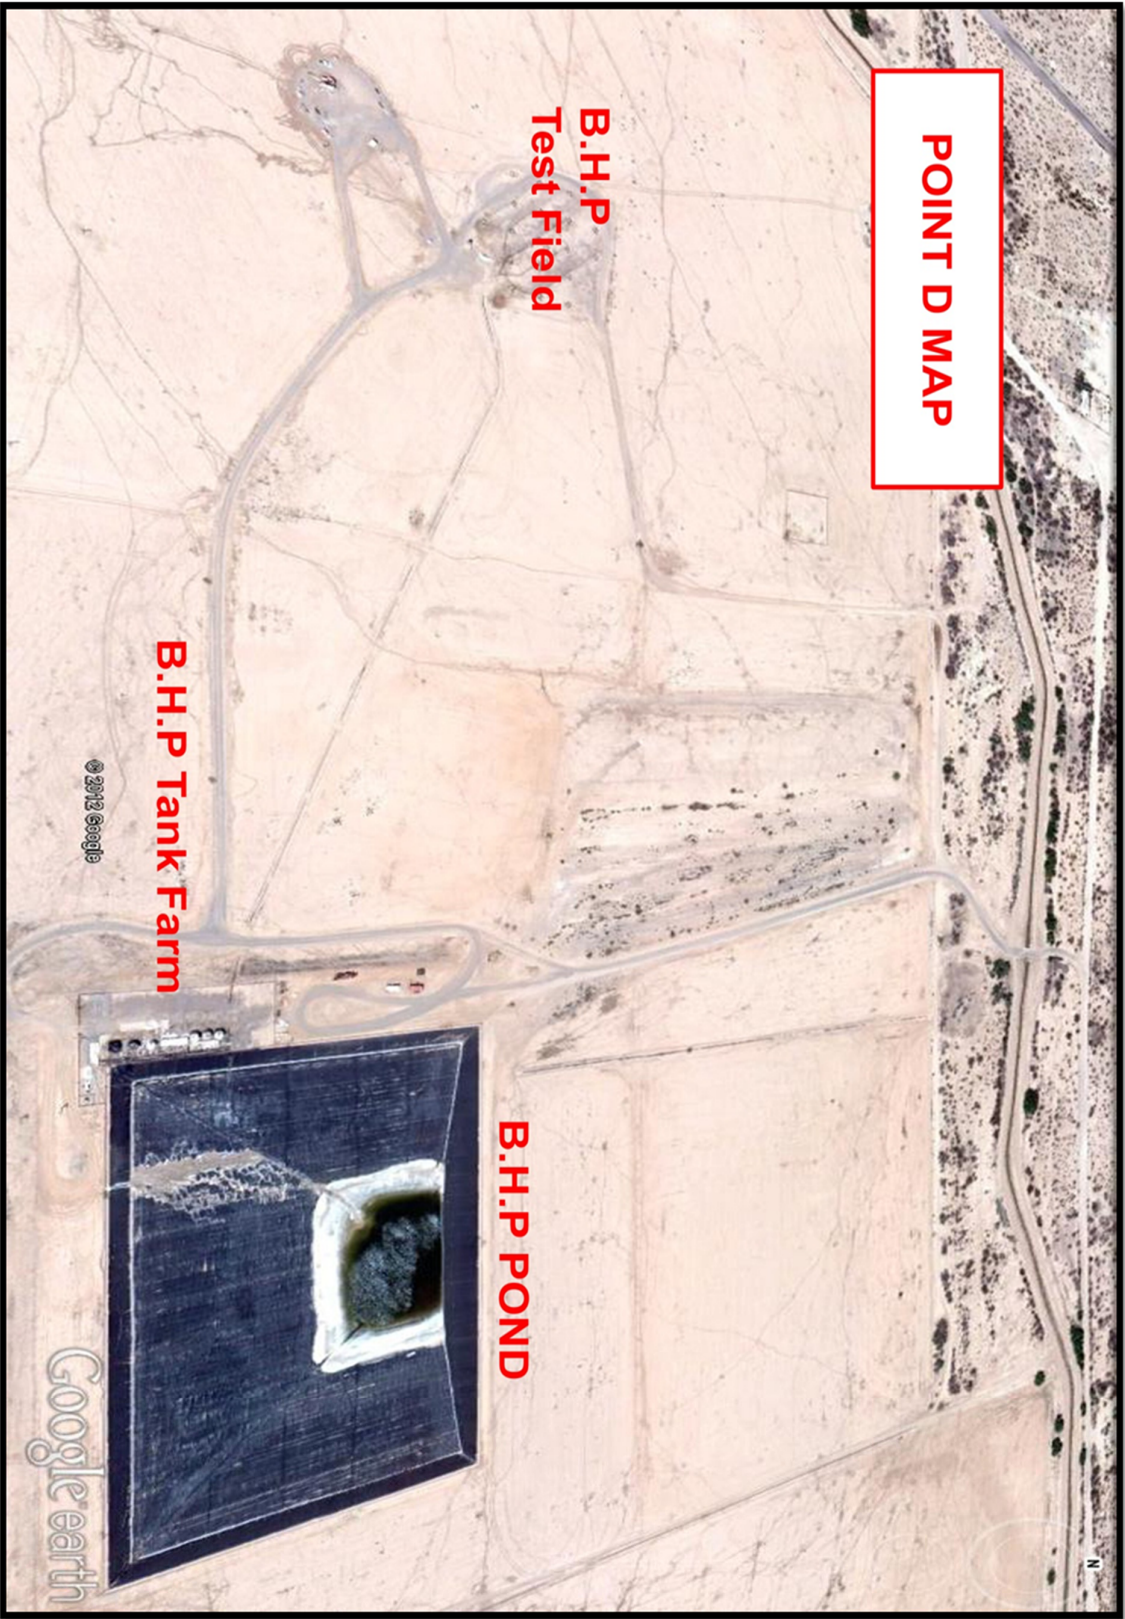

Point of Interest	Description	Objective	Hazard
Core Shed	Geologic Core Storage	Secured After Hours	No
Water Supply Well	Small Pump House	Check for Tampering	No
Electrical Transformers	SCIPP Power Lines	Check for Tampering	None

KEY POINTS

LOCATION POINT D

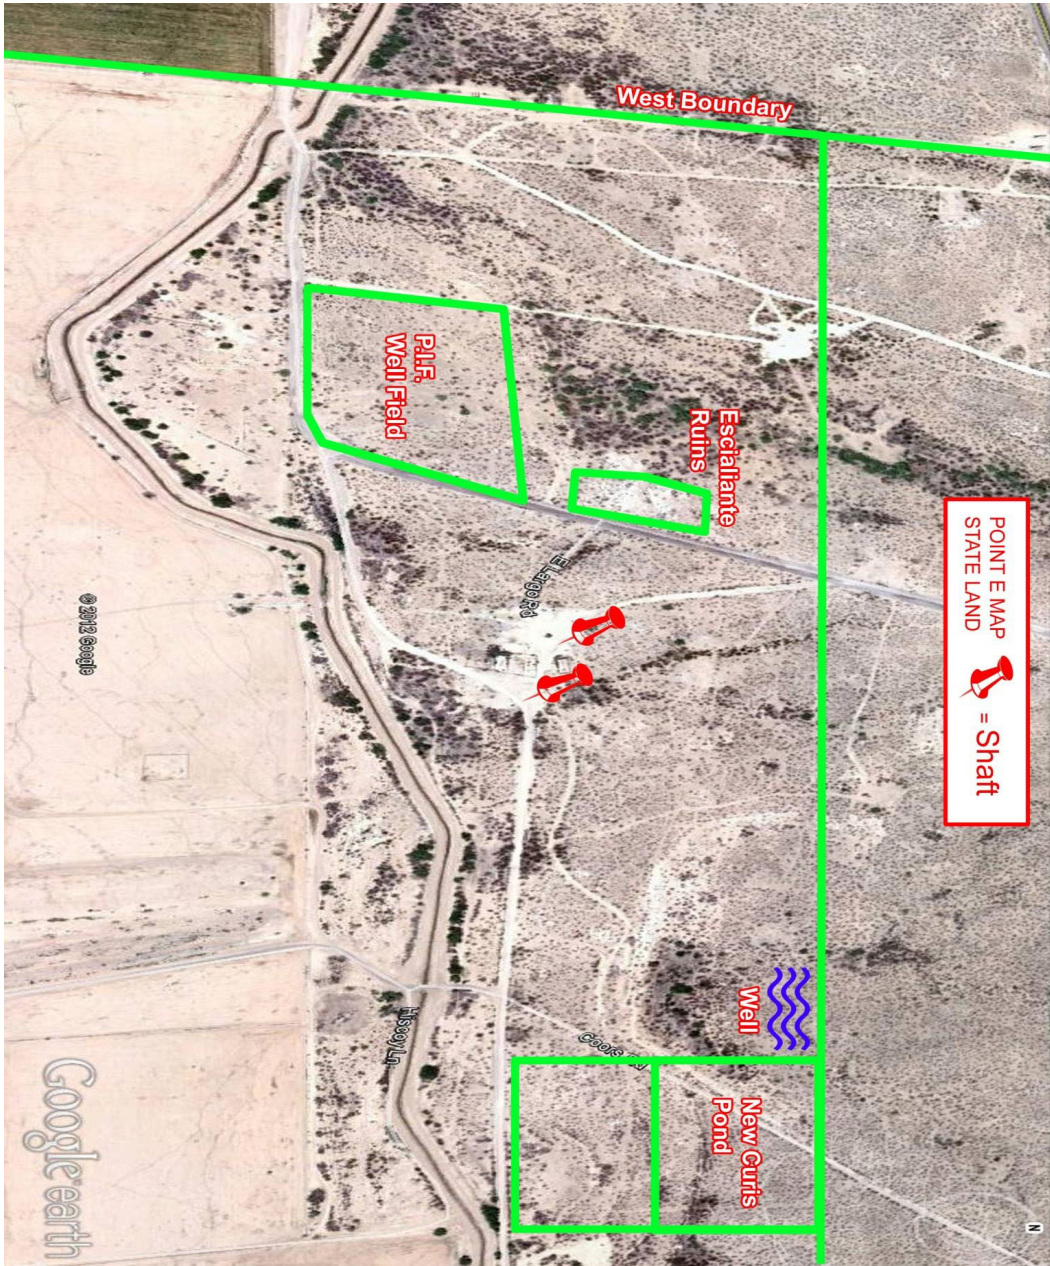

Point of Interest	Description	Objective	Hazard
BHP Test Wellfield	Drilled Wells - Pumps	Check for Tampering	No
BHP Impoundment	Square Fenced Area	Remained Locked	No
BHP Tank Farm	Numerous Solution Tanks	Remained Secured	No
Shaft Area	Fenced Slabs	Secured at All Times	No
Pipe Alley	Pipe Connection Between Area	Check for Tampering	No
BHP Impoundment Road	Access to Pond	Observe suspicious activity - Trespassing	No

KEY POINTS

LOCATION POINT E (STATE LAND)

Point of Interest	Description	Objective	Hazard
Escalante Ruins	Locked and Fenced Native American Grounds	Fence and Gate should be secured	No
Sidewinder Ruins	Native American Grounds	Check for Tampering	No
Las Casitas Ruins	Native American Grounds	Check for Tampering	No
Shaft Area	Fenced Slabs	Secured at all times	No
PTF Solvent Extraction/ Electrowinning Process	Numerous Solution Tanks and Process Plant Facilities	Physical Check and Patrol	No
Runoff Pond	Clean of Debris	Physical Check and Patrol	No
PTF Well Field	Drilled Wells - Pumps	Check for Tampering	No
Water Impoundment	Rectangular Fenced Area	No holes in Fence and Gate secured	No

KEY POINTS

LOCATION POINT F (COMMERCIAL OPERATIONS)

Point of Interest	Description	Objective	Hazard
Wellfield	Future Expansion	Physical Check and Patrol	No
Solvent Extraction/ Electrowinning Process	Future Expansion	Physical Check and Patrol	No
Process Ponds (PLS, Raffinate & Runoff)	Future Expansion	Physical Check and Patrol	No
Water Impoundments	Future Expansion	Secured at all times	No
Electrical Substation	Future Expansion	Secured at all times	No
Other Misc. Commercial- related Facilities (warehouses, etc.)	Future Expansion	Physical Check and Patrol	No

Map to be constructed and inserted into this plan once final design of commercial facilities is completed.

KEY POINTS

LOCATION POINT G: PERIMETER & GATES

Objective:

Perimeter and gate checks are required to ensure the site and the areas within the site have not been compromised. Fences that have been tampered with or unlocked gates should be considered a breach in security and should be reported immediately. Check daily instructions for gates allowed open. The following is a map of the site's perimeter and gate locations.

Please Note: *The Yellow gates are typically secured by a chain and two or three pad locks. The additional pad locks are for use by farmers in the area. It is imperative when securing the gates, you do not lock yourself or the farmers out.*

SEE PHOTO FOR PROPER LOCKING METHOD.
